SAMPLE DATA

Attention report

Personal account landing page
A/B test, version A and version B

Target audience
Women 25–49

Sample
2 × 200 people, GUS quotas

Task
Page, up to 5 minutes

Result
Version B wins

1. SUMMARY

Version B holds attention 35% longer

Version B has an Attentive Share of 27%, 9 pp more than version A. The main difference arises at the pricing section: version A loses 23 pp of readers there, version B 9 pp. As a result, 15% of the group clicked “Open account” in version B, versus 9% in version A.

Version A

Attentive Share
18%
People who read attentively: Deep Reader and Active Explorer.

Active attention time
1:12 min
Median time the page was actually being read.

Read to the end
21%
People who reached the last zone.

Clicked “Open account”
9%
Share of the group that clicked the main button.

Verified sessions
186/200
Only these sessions count towards the result.

Version
A
Current version.

Version B

Attentive Share
27%
People who read attentively: Deep Reader and Active Explorer.

Active attention time
1:37 min
Median time the page was actually being read.

Read to the end
34%
People who reached the last zone.

Clicked “Open account”
15%
Share of the group that clicked the main button.

Verified sessions
189/200
Only these sessions count towards the result.

Version
B
New layout with pricing higher up.

Recommendation: roll out version B and move the form higher up. Even in version B only 37% of the group reach the form.

2. DROP-OFF

Version A loses the most readers at the pricing section

The page is split into 10 zones by depth. Bar: how many people from the group reached the zone. Time: median attention time in the zone.

ZONE, VERSION A	REACHED	TIME
0–10% Headline and promise	**100%**	9 s
10–20% Benefits	**78%**	11 s
20–30% Photos and description	**64%**	14 s
30–40% Pricing	**41%**	8 s
40–50% Plan comparison	**35%**	7 s
50–60% Customer reviews	**30%**	7 s
60–70% Questions and answers	**26%**	6 s
70–80% Security	**24%**	6 s
80–90% Sign-up form	**22%**	5 s
90–100% Footer	**21%**	5 s

Biggest drop: zone 30–40% (Pricing), −23 pp. Read longest: Photos and description, median 14 s.

2. DROP-OFF

Version B loses readers evenly

ZONE, VERSION B	REACHED	TIME
0–10% Headline and promise	**100%**	10 s
10–20% Benefits	**90%**	13 s
20–30% Photos and description	**80%**	16 s
30–40% Pricing	**71%**	15 s
40–50% Plan comparison	**62%**	12 s
50–60% Customer reviews	**53%**	9 s
60–70% Questions and answers	**46%**	8 s
70–80% Security	**41%**	7 s
80–90% Sign-up form	**37%**	7 s
90–100% Footer	**34%**	6 s

At the pricing section version B loses only 9 pp, versus 23 pp in version A. 37% of the group reach the form.

3. CLICKS

What participants clicked

Participants use the page naturally and click on whatever interests them. Share of the group that clicked each element.

ELEMENT	VERSION A	VERSION B
See pricing	18%	22%
Compare plans	11%	14%
Customer reviews	7%	9%
Open account (header)	6%	9%
Open account (form)	3%	6%

4. READING TYPES

Three attention levels and 7 reader types

Version A

18% Attentive

45% Engaged

37% Passing

Version B

27% Attentive

47% Engaged

26% Passing

READER TYPE	A	B
Deep Reader Reads everything, goes back to passages.	6%	**10%**
Active Explorer Looks for specifics, clicks and compares.	12%	**17%**
Absorbed Consumer Reads calmly, but not to the end.	14%	**16%**
Smooth Scroller Scrolls steadily, pauses on images.	15%	**16%**
Targeted Scanner Jumps to one piece of information, e.g. the price.	16%	**15%**
Quick Skimmer Mostly reads the headlines.	21%	**15%**
Distracted Browser Attention elsewhere, leaves quickly.	16%	**11%**

5. A VS B

Verdict

Version B wins Difference in the Attentive Share is statistically significant (p < 0.05).

METRIC	VERSION A	VERSION B	DIFFERENCE
Attentive Share	18%	**27%**	**+9 pp**
Active attention time	1:12 min	**1:37 min**	**+35%**
Read to the end	21%	**34%**	**+13 pp**
Clicked “Open account”	9%	**15%**	**+6 pp**
Loss at pricing	−23 pp	**−9 pp**	**2.5× smaller**

6. QUALITY AND SAMPLE

375 of 400 sessions verified (93.8%)

REASON FOR REJECTION	A	B
No real activity on the page	7	4
Profile does not match the group criteria	2	2
Wrong answer to a check question	5	5
Automated traffic and bots	0	0

The report also shows the planned and achieved sample structure (age, education, town size) against GUS quotas, with raw session data attached as CSV.

GLOSSARY

What the metrics mean

Attentive Share	Share of people in the group who read the page attentively (Deep Reader and Active Explorer types).
Active attention time	Median time the page was visible, the tab active and the user reading or watching the content.
Reached zone	Share of the group that scrolled at least to the given depth zone.
Reader type	Session classification based on scrolling, time and pauses on content.
Verified session	A session with real activity, matching the group profile, with no automated traffic.
